Spring 2022

Kevin Tong and Kevin Pang got together for 1 hour at the EER and figured out how to add, commit, push, and pull from GitHub.

Kevin Pang first finished the initialize method and got started on the getWordLadderBFS method.

Kevin Tong finished the parse method.

Kevin Tong and Kevin Pang called on discord and screen shared for about 3 hours and finished the getWordLadderBFS method.

Kevin Tong started and finished the getWordLadderDFS method.

Kevin Pang added printLadder, tested on JUNIT, tested on kamek using the grading script, and fixed small bugs.
